Daihatsu Hijet Cargo mini commercial and Atrai Wagon mini passenger vehicles

Even better fuel efficiency with partial upgrades

~ A deck van model has been added to the Limited Series of the Hijet Cargo special models -

Hijet Cargo Cruise Turbo Limited

Hijet Cargo Deck Van G Limited

Daihatsu Motor Co., Ltd. (“Daihatsu”) announces partial upgrades to the Hijet Cargo mini commercial and Atrai Wagon mini passenger vehicles, as well as the addition of a deck van model to the Limited Series of the Hijet Cargo special models, all of which will be released nationwide on Friday, April 3.

With the latest upgrades, the Hijet Cargo and Atrai Wagon have improved fuel efficiency^{*1} by adopting an electronically controlled 4-speed automatic transmission and electronic throttle, both of which are Hijet Truck features that have been well received.

All of the Hijet Cargo models have cleared the Japanese 2015 fuel efficiency standards^{*2}. In particular, the model equipped with 2-wheel drive and 4-speed automatic transmission exceeded the standard by 5%. The Hijet Cargo Special Clean models, which have achieved a 75% reduction from the Japanese 2005 emission standards^{*3}, are eligible for the tax break for eco-friendly vehicles^{*4}.

Other refinements include the addition of a deck van model to the Limited Series of the Hijet Cargo special models. The models continue the tradition of the Limited Series and feature a stylish exterior design that employs a dedicated body color, plated front grill and top shade glass (blue), as well as an interior with a refined texture thanks to silver decoration around the instrument panel. The Limited Series offers a long three-year warranty against rust on the body surface and a five-year warranty against perforated rust on the outer plates of the body^{*5}.

*1: Including specially-equipped vehicles and welfare vehicles except compressed natural gas (CNG) vehicles.

*2: Excluding certain specially-equipped vehicles

*3: Vehicles with naturally aspirated engines

*4: Hijet Cargo Special Clean vehicle with 2-wheel drive.

*5: Excludes the cargo bed.

Outline

(1) Improved fuel efficiency

- An electronically controlled 4-speed automatic transmission is incorporated in automatic transmission models (Hijet Cargo and Atrai Wagon N).
- An electronic throttle is incorporated in all models (Hijet Cargo and Atrai Wagon).
- The 2-wheel drive models of the Hijet Cargo Special Clean edition, which have achieved a 75% reduction from the Japanese 2005 emission standards, are eligible for the tax break for eco-friendly vehicles.

< Fuel efficiency >

Models	Drive	Engine	Transmission	Fuel efficiency (km/liter)	Fuel efficiency standards for 2015	
Hijet Cargo	2WD	NA ^{*6}	4AT	16.2	Exceeded by 5%	
			5MT	17.2		
		TC ^{*7}	4AT	15.4	Achieved	
			5MT	17.2		
	4WD	NA	4AT	16.0		
			5MT	17.2		
		TC	4AT	14.8		
			5MT	16.6		
Atrai Wagon	2WD	TC	4AT	14.8		-
	4WD			13.8		

*6: Naturally aspirated engine

*7: Turbo charger engine

(2) Changes to equipment and specifications

- The audio unit size for all Hijet Cargo models has been changed to the wide DIN size.
- The top shade glass color has been changed from green to blue in an upgrade to the texture^{*5}.
- The white paint of the outer plates has been changed from two-layered to three-layered to improve anti-rust performance.

*5: Included as standard equipment on the Cruise/Cruise Turbo versions of the Hijet Cargo and the Custom Turbo RS/Custom Turbo RS Limited versions of the ATRAI WAGON

(3) Outline of the deck van G Limited, a special Hijet Cargo model

- Includes plated front grill and top shade glass (blue) as standard equipment
- Available in a total of six body colors including the three exclusive body colors Blue Mica Metallic, Tonic Orange Metallic and Off-beat Khaki Metallic, as well as Black Mica Metallic, Bright Silver Metallic and White
- Interior with a refined texture thanks to silver decoration around the instrument panel.
- Extension of the warranty period to three years for rust on the body surface and five years for perforated rust on the outer plates of the body.
- Includes ABS (with EBD function) as standard equipment
