Daihatsu's Move Mini Passenger Vehicle

RS models to be equipped with Smart Assist crash-avoidance assistance system

Move Custom RS SA

Daihatsu Motor Co., Ltd. (Daihatsu) has added a new grade to its Move mini passenger vehicle that it will release nationwide on Monday, July 1.

Since undergoing major improvements in December 2012, Move has received widespread and high levels of acclaim from customers for its fuel efficiency, reassuring drive performance, comfortable ride and for Smart Assist, the first crash-avoidance assistance system for a mini passenger vehicle. Sales of vehicles equipped with Smart Assist have reached a total of 50,000 in the approximately six months since its release.

The latest improvement, subject to the RS grade of Move Custom equipped with a turbo charger engine, adds an RS SA model that comes with Smart Assist as a standard feature. This enables consumers to choose Smart Assist models in all grades of Move and Move Custom. Another change went into color options, adding a new, vibrant fine blue mica metallic color to improve on the vehicle's exterior appeal.

Manufacturer suggested retail prices (includes tax)

Move

Grade	Engine	Transmission	Drive	Fuel efficiency (km/L) JC08 mode	Price (yen)	Eco – car Tax Exemption
