**Daihatsu adds the “Smart Selection,” Specially Equipped Vehicles,
to Five Types of its Mini Passenger Vehicle**

**Additionally, “VS” Grade, Specially Equipped Vehicles, are Added to the Move
and Move Conte**

Move L VS Smart Selection SA&SN

Move Conte X VS Smart Selection SN

Daihatsu Motor Co., Ltd. has added the Smart Selection, specially equipped vehicles, to five types of its Mini Passenger Vehicle, and the VS grade, specially equipped vehicles, to the Move and Move Conte. The company will be released nationwide on Thursday, May 8.

Smart Selection vehicles have been added to the following five vehicle types: Mira e:S, Mira Cocoa, Move, Move Conte, and Tanto. Smart Selection vehicles consist of three series: Smart Selection SA, Smart Selection SN, and Smart Selection SA & SN. Smart Selection vehicles offer technologies such as the Smart Assist, a crash-avoidance support system that is very popular among customers; the Smartphone-Linked Memory Navigation System; the Super UV & IR Cut Glass (front door), which blocks 99% of ultraviolet rays; and the Super Clean Air Filter, for pollen and PM 2.5, as their standard features*1, and yet will be available at affordable prices.

VS models added to the Move and Move Conte offer features that allow for an improved interior and exterior appeal. For example, it is possible to adopt an exclusive exterior.

Also, the designs improved in VS models by adding a Pearl White and Cotton Ivory two-tone selection for the Move Conte and making the center of the wheel's cap similar to the color of the body when selecting the two-tone selection.

*1 Features vary among the Smart Selection SA, Smart Selection SN, and Smart Selection SA&SN.

Outline of Special Features

Smart Selection

Added for five vehicle types: Mira e:S, Mira Cocoa, Move, Move Conte, and Tanto

Smart Selection SA* 2

Special Features	<ul style="list-style-type: none"> - Crash-Avoidance Support System, "Smart Assist" - Super UV & IR Cut Glass (Front Door) - Super Air Clean Filter
