

Daihatsu Move Canbus:

Daihatsu Launches Special Edition Models with White and Black Exterior Accents

G "White Accent Limited SA III"

G "Black Accent Limited SA III"

Daihatsu Motor Co., Ltd. (hereinafter "Daihatsu") has added two special edition models—the White Accent Limited SA III, and the Black Accent Limited SA III—to its Move Canbus Limited Series of mini passenger vehicles. The vehicles went on sale nationwide on April 22, 2019.

Launched in September 2016, the Move Canbus mini passenger vehicle was planned and developed primarily for women who enjoy individual lifestyles. With its unique design, two-tone color schemes, and its highly convenient packaging and sliding doors, the Move Canbus has been well received, and the Black Interior Limited model that was released in 2018 was also favored by many male customers. Since its launch, the Move Canbus has proven to be an extremely popular model, with total sales in excess of 200,000 units.

Now, two new special edition models have been added to the Move Canbus line-up: the White Accent Limited SA III, and the Black Accent Limited SA III. In contrast to the affordable, monotone Limited Series, these two special edition models feature a range of Pearl White or Black parts, including front grills, fog lamp rings, bumper malls and side malls, door mirrors, and wheel caps. The bodies of the vehicles themselves are also decorated with Pearl White or Black pinstripes which create an impressive exterior, so increasing the range of choices available.

The White Accent Limited SA III model is available in three body colors: Natural Beige Mica Metallic, Fine Mint Metallic, and the new Blooming Pink Metallic^{*1}. The Black Accent Limited SA III model is available in Smooth Grey Mica Metallic and Pearl White III^{*2} body colors.

Based on its "Light you up" approach, going forward Daihatsu will continue to provide optimal mobility to every one of its customers, and cater to their needs via its extended range of mini and compact vehicles.
