Daihatsu to Launch Special Edition Models of Move, Cast, and Mira TOCOT Mini Passenger Vehicles

Move X “Limited II SAIII”

Cast Style G TURBO “VS SAIII”

Mira TOCOT G “Limited SAIII”

Daihatsu Motor Co., Ltd. (hereinafter “Daihatsu”) has released special edition models of the mini passenger vehicles Move, Cast, and Mira TOCOT. The new models will go on sale nationwide on July 29.

The Move was first launched in 1995. The current model was launched in December 2014, and it is a flagship model of Daihatsu’s spacious vehicles. The special edition Move X “Limited II SAIII” being released this time has special features—such as a black interior pack and LED headlights—on top of the base X “SAIII” model.

The Cast was launched in September 2015, with three variations—Cast Style, Cast Activa, and Cast Sport—developed simultaneously. This time, a special edition VS Series has been released for Cast Style, and Cast Activa respectively. Special features include even more stylish interior accent colors, Panorama Monitor*¹ which supports driving such as when parking, and seat heaters for the driver to make driving comfortable even on cold days.

The Mira TOCOT launched in June 2018 is a model featuring a charming design and an easy-to-drive packaging. This time, the special edition model G “Limited SAIII” has been released based on the G “SA III”, which comes with standard features such as Panorama Monitor*¹.

All these special edition models have extremely attractive prices compared to the base grade models, expanding the range of choices available to customers.

Based on its “Light you up” approach, going forward, Daihatsu will continue to provide optimal mobility to every one of its customers, and cater to their needs via its extended range of mini vehicles and compact cars.

*¹ Released as a Panorama Monitor Genuine Navigation Equipment Upgrade Pack
