DAIHATSU MOTOR Co., LTD. (hereinafter “DAIHATSU”) will exhibit mini welfare vehicles, walking-area mobility devices, and mobility services for welfare and nursing care at H.C.R. 2025 - The 52nd International Home Care & Rehabilitation Exhibition & Forum, Asia's largest comprehensive welfare equipment exhibition, held at Tokyo Big Sight (Koto-ku, Tokyo) from October 8 to 10, 2025.

Based on the mission of “staying close to our customers and enriching their lives,” DAIHATSU offers a diverse product lineup of welfare vehicles tailored to users’ nursing care needs under the “Friendship Series.” As a result, it has earned high praise from many customers, securing the No. 1 market share*1 for mini welfare vehicles. Furthermore, DAIHATSU is pursuing various initiatives aimed at creating a society where everyone can move freely, including developing mobility services that stay close to local communities and the elderly.

At this year’s H.C.R. 2025, DAIHATSU will exhibit four welfare vehicles, including wheelchair accessible vehicles and seat lift vehicles, along with the “e-SNEAKER,” a walking-area mobility device supporting short-distance travel that launched in August 2025.

In addition, within the booth, DAIHATSU will feature exhibition areas showcasing its mobility services: RAKUPITA SOGEI, which will undergo a renewal in October 2025 to address growing transportation needs within the increasingly complex welfare and nursing care sectors; and GOISSHO, a shared nursing care transportation service that launched in 2022.

By providing products and services that contribute to the welfare and nursing care sectors, DAIHATSU will continue to work on both MONODUKURI and KOTODUKURI to realize a mobility society that enriches our customers' lives.

◆ Vehicles for exhibition
