### Daihatsu Partially Upgrades Kei-Commercial Vehicles “Hijet Cargo” and “Atrai” and Enhances Safety

Hijet Cargo Deluxe

Atrai X

Daihatsu Motor Co., Ltd. (hereinafter “Daihatsu”) has partially upgraded the Hijet Cargo and Atrai, as well as special-purpose and welfare vehicles based on these models, and will launch them nationwide on June 4.

The Hijet Cargo has been widely used throughout Japan as a “working partner” for customers in a wide range of industries, particularly in the delivery business, from rural to urban areas. Its cumulative production has reached approximately 3.3 million units\*<sup>1</sup>. The Atrai, meanwhile, offers a spacious cargo area unique to commercial vehicles, along with passenger-car-like equipment and refined interior and exterior design, enabling use for a wide range of purposes.

This partial upgrade enhances safety by adding new detection functions to the Smart Assist\*<sup>2</sup> active safety system, including detection of bicycles crossing the road, vehicles in the oncoming lane during right turns at intersections, and pedestrians crossing from the opposite direction when turning.

In addition, the Atrai adopts the “Active Multi Information Meter,” which features simple, refined, and highly visible graphics, thereby enhancing its design appeal\*<sup>3</sup>.

Furthermore, for the Hijet Cargo, the popular “LED Package” has been made standard equipment on certain grades\*<sup>4</sup>.

Daihatsu will continue to provide high-quality and affordable products that stay close to the lives of customers.

\*1: As of June 2026, according to research conducted by Daihatsu.

\*2: Smart Assist is designed to assist the driver; its functions are limited and may not operate depending on road or weather conditions. Please do not rely solely on the system and always drive safely. For details, please consult your local sales company or official website.

\*3: Standard on RS grade, Atrai Deck Van, and Atrai Sloper.

\*4: Includes LED headlamps, LED fog lamps, LED front room lamps, LED cargo room lamp, adaptive driving beam (ADB), and side view lamps. Standard on Cruise, Cruise Turbo, and Hijet Deck Van G grade.

## Manufacturer's Recommended Retail Prices

(Prices are recommended retail prices and are intended for reference purposes only. Prices are independently set by sales companies; for further details, please visit your nearest sales company. Insurance, taxes (excluding consumption tax), automobile recycling fees, and fees associated with registration, etc. are charged separately.)
