

Daihatsu Introduces a Tanto Special-Edition Model with Black Accents and Partially Upgrades the Tanto and Thor

Tanto X "Daily Tool"

Thor G

Daihatsu Motor Co., Ltd. (hereinafter "Daihatsu") has introduced a special-edition Tanto featuring black accents and partially upgraded the Tanto mini passenger car and Thor compact passenger car. Nationwide sales will commence on Monday, August 31.

Since its launch in 2003, Tanto has pioneered the new super-height category^{*1}. Today, the lineup consists of three variations: the Tanto, Tanto Custom, and Tanto FunCross, all of which have been well received by a broad range of customers, particularly families with children. For this launch, Daihatsu has introduced the Daily Tool special-edition Tanto featuring black accents, while also adding the Daily Tool Style, which combines a dedicated accessory package to create a more distinctive and stylish appearance. In addition, the new Urban Tough Style has been introduced for the Tanto FunCross, combining a dedicated accessory package with a design that balances urban sophistication and rugged strength.

As part of this minor model update, popular body colors have been added to both the Tanto and Thor lineups. In addition, the Thor now offers three new colors: Yellowish Black Crystal Mica, ^{*2} Grayish Olive Metallic, and Black Mica Metallic × Grayish Olive Metallic, ^{*2} further enhancing customer choice. In terms of safety, Daihatsu has enhanced the preventive safety system Smart Assist, ^{*3} by adding Crossing Cyclist Detection, as well as detection functions for vehicles in the opposing lane when making a right turn at intersections and pedestrians crossing from the opposite direction when making right or left turns. These enhancements further improve the safety performance of both the Tanto and Thor.

Daihatsu will continue to provide high quality and affordable products that closely support the lifestyles of its customers.

^{*1}: Mini passenger vehicles with an overall height of 1,700 mm or higher. Based on Daihatsu research.

^{*2}: Manufacturer option.

^{*3}: Smart Assist is designed to support the driver's operation of the vehicle. As such, the system has limitations and may not function depending on road, weather, or other driving conditions. Please do not rely solely on this system and always drive safely. For further details, please contact your nearest Daihatsu dealer or visit the official Daihatsu website.

[Overview of Special-Edition Model] [Tanto]

<X Turbo “Daily Tool” / X “Daily Tool”>

Black accents are applied to the colored door mirror, outside door handles, and aluminum wheels, creating a design that adds color to everyday life.

[Overview of Partial Upgrades]

<Changes to Color Variations>

[Tanto] [Tanto FunCross]

- Smooth Gray Mica Metallic and Black Mica Metallic × Smooth Gray Mica Metallic have been added.

[Thor]

- Yellowish Black Crystal Mica^{*2}, Grayish Olive Metallic, and Black Mica Metallic × Grayish Olive Metallic^{*2} have been newly developed.
- Shining White Pearl^{*2}, Cool Violet Crystal Shine^{*2}, and Black Mica Metallic × Shining White Pearl^{*2} have been added.

<Exterior Design Changes>

[Tanto FunCross]

- Colored Door mirrors and outside door handles have been changed to Black Mica Metallic.
- 14-inch and 15-inch aluminum wheels have been changed to black.

<Safety Enhancements>

[Common to Both Models]

[Collision Warning] [Collision-Avoidance Braking] (Vehicles and Pedestrians [Day/Night])

- Added detection of bicycles crossing the vehicle's path.
- Added detection of oncoming vehicles when turning right at intersections and crossing pedestrians approaching from the opposite direction when turning right or left.
- The maximum operating-speed condition for pedestrian detection has been increased from 60 km/h to 80 km/h.

[Reduced Driving Burden]

- Improvements to the preceding-vehicle detection range and accuracy of ACC (Adaptive Cruise Control)^{*5} provide smoother operation than before.

[Thor]

- A seat lifter has been added to the driver's seat on the X grade.
- A headlamp illumination extension function has been added.
- SRS side airbags (driver and front passenger) have been adopted as standard equipment.
- SRS curtain shield airbags (front and rear seats) have been adopted as standard equipment.
- Two rear corner sensors have been added.

[Tanto] [Tanto Custom] [Tanto FunCross]

- Sway during operation of LKC (Lane Keep Control)^{*6} has been reduced, improving driver confidence.

<Convenience Enhancements>

[Thor]

- The X grade adopts self-illuminating twin meters (with tachometer) and a TFT color multi-information display.
- An armrest has been added to the driver's seat on the X grade.

*5: [Tanto] Standard equipment on the Custom RS, FunCross Turbo, and X Turbo grades; available as a manufacturer option on the Custom X, FunCross, and X grades.

[Thor] Standard equipment on the Custom G Turbo and Custom G grades; available as a manufacturer option on the G Turbo and G grades.

*6: [Tanto] Standard equipment on the Custom RS, FunCross Turbo, and X Turbo grades; available as a manufacturer option on the Custom X, FunCross, and X grades.
